

Professional Relo

the key to employee mobility

Professional **Relo** was established in 1994 to deliver immigration and relocation services to corporate assignees moving to Italy. Our success is the result of a skilful blend of expertise with efficiency and flexibility. This winning combination enables us to offer our client companies a support that actively contributes to ensure the successful international relocation of their employees and families accompanying them.

Quality Certification

In 2014, on its 20th anniversary, Professional Relo was awarded with the EuRA (European Relocation Association) Global Quality Seal, the world's first accreditation programme for relocation service providers. Professional Relo is the only one relocation company in Italy holding the GQS.
